Dr. Maruf Olatunji Alausa, the Honourable Minister of Education, Federal Republic of Nigeria

The Federal Government has placed a seven-year hold on creation of any new federal universities, polytechnics, or colleges of education in the country.

The Minister of Education, Dr. Maruf Olatunji Alausa, gave the news on 13th August, 2025, to stop the spread of under-used institutions that drain resources.

## ALL PUBLIC UNIVERSITIES TO COMPLETE ADMISSIONS BY 31ST OCTOBER, 2025...Private Universities By 30th November, 2025; ...All Other Institutions By 31st December, 2025.

Following directives issued at the 2025 Policy Meeting chaired by the Honourable Minister of Education, all tertiary institutions have been instructed to conclude their admission processes by the end of 2025 according to the schedule below:

- Public universities: To complete admissions by 31st October, 2025.
- Private universities: To complete admissions by 30th November, 2025.
- All other institutions (public and private): complete admissions by 31st December, 2025.

All institutions are encouraged to finalise admissions well in advance of these

deadlines. Even where an institution is not yet ready to commence the new academic session, such an institution should conduct its admission and archive it. By this policy directive, all admission processes must be concluded within the prescribed timelines.

Stakeholders at the policy meeting reached this decision to stabilise the academic calendar and ensure equitable access to admission slots across all tiers of tertiary education. Consequently, institutions conducting post-UTME screenings are expected to conclude those exercises in good time to comply with the 2025 admission schedule.

## STRINGENT MEASURES FOR UNDERAGE ADMISSIONS IN THE INTEREST OF CANDIDATES - JAMB

The Joint Admissions and Matriculation Board (JAMB) says the stringent measures on underage admissions into tertiary institutions are intended to protect candidates by ensuring they are ready for the exposure and responsibilities of

university life.

The Registrar, Prof. Is haq Oloyede, said this during a virtual meeting with vice chancellors of Nigerian universities and other stakeholders held on Wednesday, 6 August 2025, in Abuja. He warned that the Board would no longer tolerate the

### ...FG Slams 7-Year Ban on Creation of New Federal Tertiary Institutions

He pointed out that many existing schools have low enrollment and poor infrastructure, in some cases, universities have more staff than students.

He said last year, dozens of federal schools had fewer than 100 applicants, and many got none at all.

According to the Minister, instead of building new institutions, the government wants to channel funds into improving the ones that are on

ground especially in terms of upgrading their facilities, hiring qualified staff, and increasing capacity. The aim is to raise the standard of education while protecting the credibility of Nigerian certificates worldwide.

As the ban only affects federal schools, nine private universities have, in the meantime, been granted approval because their applications had been pending for years and had passed all quality assurance checks.

Furthermore, the Minister also announced the intention of the government to review the Polytechnic Act so that polytechnics can award Bachelor of Technology degrees, helping to address the issue of undue preference for universities by applicants.

He noted further that the ban is to be seen as a "reset button" for the Nigeria's higher education system to ensure that quality, not just quantity becomes the focus.

## KOGI STATE OFFICE HOSTS NECO OFFICIALS

The National Examination Council (NECO) State Coordinator, Mr. Thaddeus Ajabu, and his team on Thursday, 14th August, 2025, visited the Board's State Office, Lokoja, in the buildup to its transition to Computer-based testing.

In his address, Mr. Ajabu explained that the primary purpose of the visit was to strengthen the existing mutual ties between NECO and JAMB. He also highlighted some of the challenges currently faced by NECO and areas where the Board's assistance would be appreciated.

In his response, the Board's State Coordinator, Mr. Sa'id O. Yusuf, fsi, expressed appreciation for the

courtesy visit while stressing the importance of collaboration among sister agencies.

According to him, each examination body has its unique mandate, hence, there should be no room for rivalry rather mutual and cordial relationship should be the rule rather than the exception.

He also assured the NECO officials of the Board's willingness to render necessary assistance in its transition to the CBT mode. He recalled the Board's various experiences when it adopted full-blown CBT in 2015, even after conducting trials with a combination of paper and computer-based mode in 2013 and 2014.

Yusuf noted that although, there were initial challenges, the Board has since become a success story being emulated by other examination bodies globally.

In another development, the Kogi State Coordinator, Mr. Sa'id O. Yusuf, on Monday, 11th August, 2025, paid a courtesy visit to the State Commissioner of Education, Hon. Wemi Jones.

The Coordinator said the visit was an interactive one billed to discuss matters of interest for the purpose of fostering mutual understanding and strengthening the cordial relationships with education stakeholders in the State.

## NORRENBERGER PENSIONS TAKES SENSITIZATION TO NHQA, LAGOS ...Advises Staff on Need to Grow With Their Growing Pensions Savings

As part of measures to facilitate seamless retirement, a marketing team from Norrenberger Pensions Managers, on Tuesday, 12th August, 2025, visited the Joint Admissions and Matriculation Board (JAMB) Lagos Office, for an outreach programme.

According to the company's representatives, the visit became

necessary to sensitize members of staff on the need to update their records with their Pension Fund Administrators (PFAs) on time so as to facilitate a seamless transition to retirement.

While addressing the staff of the facility, Mr. Austin Osas, Norrenberger Pensions, underscored the importance of early financial planning and proactive engagement with their pension administrators. He says, "If you have money in your pension account now, I urge everyone to see how you can take it and invest it rather than leaving it untouched for years until retirement. Hence, it would be a good idea to consider some opportunities to grow its value, so

that at the age of 50 or 60 years, the money might have generated a sizeable interest with a positive value on the overall contributions.

The interactive session also discussed critical steps for ensuring that staff records with PFAs are completed and up-to-date, including the provision of accurate biodata, next-of-kin details, and employment history.

To wrap up the visit, the company's representatives reiterated its commitment to supporting Nigerian workers through promoting timely updates of their records as well as offering guidance on prudent investment options within the framework of the nation's Contributory Pension Scheme.

### ...Stringent Measures for Underage Admissions in the Interest of Candidates - JAMB

"academic abuse" of pushing psychologically and emotionally unprepared children into the rigours of university education.

He pointed out that the measures were not only about the age or intelligence but also consideration for the maturity and right frame of mind of underage candidates to navigate the rigours of tertiary education.

The Registrar disclosed that the Board was not unmindful of the clamour for unimpeded admission of exceptionally-brilliant candidates but pointed out that the Board owes

it a duty to the nation to ensure that only the truly exceptional candidates are admitted.

While reaffirming the 16-year age threshold as mandated by the federal government, he stated some of the criteria that gifted candidates had to possess. For instance, he said underage candidates seeking admission must score a minimum UTME score of 320 out of 400 (80%); post-UTME score of at least 80%; minimum of 80% in a single sitting of WAEC or NECO, equivalent to 24 points out of 30.

He also said that for science candidates, Mathematics must be

among the top-scoring subjects, while for Arts candidates, English Language must be included.

The JAMB helmsman also declared that the post-UTME is still required for underage applicants even in universities, where the general post-UTME process had been suspended, hence underage candidates will still be required to undergo a dedicated post-UTME screening, which would be collated along with other criteria by the Board for further processing.

## OFFICE OF THE REGISTRAR

No. 2024ff.04

6<sup>th</sup> May, 2024

### **MANDATORY USE OF THE NATIONAL IDENTIFICATION NUMBER (NIN) FOR REGISTRATION WITH JAMB BY CANDIDATES APPLYING FOR NON-REGULAR PROGRAMMES**

**This Advisory is issued to all the concerned institutions, and candidates desirous of applying to study under the non-regular mode of study in tertiary institutions in Nigeria.**

As part of measures to checkmate the nefarious activities of fraudulent characters, who are scheming to compromise candidates' records through dubious registration channels and in compliance with its enabling act, JAMB has mandated that all applicants desirous of studying in Nigerian tertiary institutions must provide their NIN while registering for any programme of study in any tertiary institution in Nigeria irrespective of whether the mode of study is **regular and non-regular**.

2. Consequently, it has now become mandatory for all prospective candidates in the **non-regular category (NOUN, Distance Learning, Part-time and Sandwich programmes)** to create a profile code, before registering with JAMB, by sending their NIN, through their unique phone number to either of the Board's sort code (55019 or 66019).
3. Immediately after the creation of profile, each candidate will proceed to a CBT Centre for registration. After the registration, the candidate's details will appear on the CAPS of the institution of choice under non-regular admission. The institution will then propose and recommend to the Board for approval and the candidate will accept and print admission letter.
4. Furthermore, all previous candidates in the non-regular programmes, who had not integrated their NIN or unique phone number on the Board's platform, would have to create a profile using their respective NINs to access any of the services of the Board.
5. No candidate can use the process to change any of the data already supplied to the Board.
6. JAMB, as a responsive organisation that is conscious of the peculiarities of the non-regular studies, will continue to make the registration process as flexible as possible by making its platform available throughout the year. It is, therefore, expected that candidates, who fall under this category, will apply through JAMB before approaching their preferred institutions to process their admission with their respective JAMB registration numbers. They would also be expected to pay their preferred institution a processing fee as determined by the respective institutions.
7. Please be guided for compliance.
