He lamented that despite the engagement of the NSCDC, the Board's critical assets are still being vandalised.

protection.

He also stated that arrangements have been concluded to procure additional raincoats, boots, and other equipment that could enhance adequate service delivery. He affirmed the commitment of the Board to act on the issues raised at the meeting so as to provide the enabling environment that would enhance efficiency of labour and ensure effective policing and surveillance.

Earlier, the Director, Special Duties Department, Mr. Chidebe Achunine, said the recent events recorded at the Benin Zonal Office, Kebbi State Office, and at the PTC, Ilobu Road, Osogbo, served as a sober reminder of the urgent need to reinforce the Board's security consciousness and strengthen collaboration at all levels.

He stated that the management was deeply concerned about these breaches, which prompted the issuance of a security advisory by the Department on 20th August, 2025.

He said the meeting would assist the Board not only to build on that advisory but also to chart a more

robust, collective way forward in the protection of the Board's critical assets.

The Director believed that effective communication is critical noting that NSCDC personnel are expected to brief Directors/Coordinators, who represent the Registrar in their respective States, on security developments promptly.

He also stressed that other areas of collaboration that could enhance surveillance strategies included community engagement, mutual dialogue and respect, clear reporting channels, documentation, police report and prompt transmission to the Headquarters, among others.

In his remarks, the Director, Human Resource Management (DHRM), Mr. Gani Abd'rahim, introduced a high-ranking NSCDC Desk Officer domiciled in JAMB, Assistant Corps Commandant (ACC) Nda Ali Ibrahim, to the participants.

He said the formal introduction of ACC Ibrahim is to avail the participants the opportunity to know the officer so as to strategize and interact with him with a view to sharing information and fashioning

measures that could help field officers in the outstation perform optimally and mitigate any act of vandalism.

He expressed optimism that this synergy would enhance intelligence and prompt escalation of infractions to effectively ward off any form of threats to Board's facilities.

In his submission, the NSCDC Desk Officer reiterated the commitment of the Corps to safeguarding lives and property, protecting critical national assets and infrastructure as well as ensuring faster disaster response, and supporting national security in collaboration with stakeholders at all levels.

ACC Ibrahim, therefore, tasked the officers entrusted with the responsibility of guarding the Board's facilities to imbibe key safety elements such as monitoring, surveillance, enforcement of rules, while controlling access to restricted areas, among others.

He stressed the need for effective collaboration between the various Heads of outstations with corps personnel stationed there to ensure adequate supervision, mutual engagement, rigorous risk assessment and holding those in supervisory roles accountable for any misdemeanours.

ACC Ibrahim also briefed the meeting on feedbacks from the men and officers on the field such as call for increase in allowances, installation of CCTV cameras, provision of lighting equipment, increase in manpower, parameter wall/fence in some of the offices, among others.

MANDATORY USE OF THE NATIONAL IDENTIFICATION NUMBER (NIN) FOR REGISTRATION WITH JAMB BY CANDIDATES APPLYING FOR NON-REGULAR PROGRAMMES

This Advisory is issued to all the concerned institutions, and candidates desirous of applying to study under the non-regular mode of study in tertiary institutions in Nigeria.

As part of measures to checkmate the nefarious activities of fraudulent characters, who are scheming to compromise candidates' records through dubious registration channels and in compliance with its enabling act, JAMB has mandated that all applicants desirous of studying in Nigerian tertiary institutions must provide their NIN while registering for any programme of study in any tertiary institution in Nigeria irrespective of whether the mode of study is **regular and non-regular**.

2. Consequently, it has now become mandatory for all prospective candidates in the **non-regular category (NOUN, Distance Learning, Part-time and Sandwich programmes)** to create a profile code, before registering with JAMB, by sending their NIN, through their unique phone number to either of the Board's sort code (55019 or 66019).
3. Immediately after the creation of profile, each candidate will proceed to a CBT Centre for registration. After the registration, the candidate's details will appear on the CAPS of the institution of choice under non-regular admission. The institution will then propose and recommend to the Board for approval and the candidate will accept and print admission letter.
4. Furthermore, all previous candidates in the non-regular programmes, who had not integrated their NIN or unique phone number on the Board's platform, would have to create a profile using their respective NINs to access any of the services of the Board.
5. No candidate can use the process to change any of the data already supplied to the Board.
6. JAMB, as a responsive organisation that is conscious of the peculiarities of the non-regular studies, will continue to make the registration process as flexible as possible by making its platform available throughout the year. It is, therefore, expected that candidates, who fall under this category, will apply through JAMB before approaching their preferred institutions to process their admission with their respective JAMB registration numbers. They would also be expected to pay their preferred institution a processing fee as determined by the respective institutions.
7. Please be guided for compliance.

HUMAN RESOURCE MANAGEMENT IN FOCUS

YOUR GUIDE TO PATERNITY LEAVE

Paternity leave is a relatively new but important provision in the Public Service, reflecting the growing recognition of fathers' roles in family life and child care. According to **Public Service Rule (PSR 120219)**, paternity leave is the authorized absence granted to a serving male officer shortly before or after the delivery of his spouse. It lasts for **14 working days** and is permitted **not more than once in two years**, for a **maximum of four children**.

This provision complements maternity leave and promotes work-life balance, gender inclusivity, and the well-being of families in the workplace.

Who is Eligible?

Paternity leave is available to serving male officers of the Board. To qualify, certain conditions must be met.

Eligibility Criteria

A male officer is eligible for paternity leave if:

- He is legally or traditionally married to the mother of the newborn.
- His marital status records are duly updated with the office.
- He submits a formal request supported by the spouse's expected delivery date report from a recognized medical facility.
- In cases of adoption, he provides the certificate or approval document, noting that the adopted child must be less than four months old.

Important Points to Note

- Approval is not automatic – meeting the conditions does not guarantee approval, as requests remain subject to Management's consideration.
- Leave may be denied if:
 - ✓ The Staff has already accessed paternity leave more than once within a two-year period.
 - ✓ The leave request exceeds the maximum limit of four children.
 - ✓ In the case of adoption, the adopted child is older than four months.

Final Word

Paternity leave is an opportunity for fathers to bond with their newborns and provide critical support to their spouses, thereby strengthening family life and enhancing workplace productivity. Officers are encouraged to plan ahead, update their records, and follow due process in order to enjoy this important welfare provision.

22nd August, 2025

ADVISORY ON PROCEDURE FOR PROCESSING OF (DEGREE) ADMISSION FOR AFFILIATED INSTITUTIONS

In 2022, the Board proposed that universities should take full responsibility for admissions into all degree programmes offered through institutions affiliated with them. However, this directive was not fully implemented, as universities were initially given the liberty to decide on the matter, pending a final resolution. To date, only the University of Ibadan has assumed this role of overseeing and coordinating the admissions of its affiliate institutions.

2. Following the meeting held on Monday, 18th August 2025, with various institutions regarding violations of matriculation guidelines, concerns were raised about the existing admission processing structure. Notably, institutions complained that they could not be held accountable for the misdemeanors of their affiliates under the existing processing format. As a result of this, the matter was revisited.

3. Consequently, it was resolved that the previously proposed process, where Mother-Institutions take responsibility for admissions into their affiliated institutions, should now be adopted and implemented by all universities with affiliates.

4. In light of the above, the Board has developed an updated procedure for the processing of admissions by both Mother-Institutions and their affiliates, as follows:

- a. Head of the affiliated-institution logs into JAMB (CAPS) portal and downloads candidates for a particular programme;
- b. The Head of the Affiliated-Institution (wherever it is based) logs into JAMB (CAPS) portal and sets admissions criteria for every programme, such as minimum scores for UTME, post UTME, aggregate, catchment and ELDS;
- c. The Head of the affiliated institution proposes the qualified candidates for each programme on CAPS and it goes to the Head of the mother-institution;

Contd in Pg 11

- d. The Head of the Mother-Institution (wherever it is based) logs into the JAMB (CAPS) portal and recommends the candidate to the Registrar of JAMB (or representative) for approval or declines the proposal with a reason for the rejection;
- e. The Registrar of JAMB (or representative) approves the recommendation(s) from the Head of the Mother-Institution or declines the recommendation with a reason for the rejection;
- f. If the recommendation is approved, the candidate is notified through his/her email and SMS to either accept or reject the offer of admission. The two institutions can log in and view the status of the recommended candidates;
- g. If the candidate accepts the offer of admission, he/she can thereafter print his/her admission letter and access other services online from his/her profile.

NOTE: *The Head of an Affiliated-Institution has access to “VIEW ONLY” all recommendations by the Head of a Mother-Institution.*

5. All Universities serving as Mother-institutions, Polytechnics/Monotechnics, Colleges of Education and other institutes offering degrees in affiliation with universities are to be guided by this, please.
